The Wutherich & Co. Composite was down 11.2% in October. This compares with the S&P/TSX down 6.2% and the BMO Small Cap Index down 8.5%.

October was a difficult month for the Wutherich & Co. Portfolio and the markets in general. With perhaps one or two exceptions, very little has changed in the fundamentals for most of the companies in our portfolio. We continue to see most face good, or very good, growth prospects and trade at reasonable valuations. What may have changed is investor psychology. Whenever we see large drops in stock prices based on this, we look to take advantage of any bargains that may result. Our 10% cash position will help us do this in the coming months.

JF and I would like to remind you that we are hosting the **Wutherich & Co. Annual Update** on November 15 at the Mount Stephen Hotel, 1440 Drummond Street. Cocktails at 17:30, presentation at 18:00. RSVP to [info@wutherich.ca](mailto:info@wutherich.ca) or 514-924-4438. We only have a few seats left so we strongly encourage you to get back to us as soon as possible.

# Wutherich & Co. Factsheet

## Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

## Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

\*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. BMOSCI-wtd = BMO Small Cap Index, Total Return, weighted. This index is currently the most comparable to the Wutherich & Co. portfolio due to its average market capitalization, though it may differ greatly in its sector weightings; TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
