Monthly Message

The Wutherich & Co. Composite was up 2.7% in March. This compares with the S&P/TSX up 1.0% and the BMO Small Cap Index down 1.0%.

The Wutherich & Co. Composite has now gained 31% from its low on Dec. 24, 2018 and now sits at an all-time high. At 21.4%, the first quarter also marks the second strongest performance that the Composite has ever had. The strongest was the very first quarter that the composite was in existence, the fourth quarter of 2001 when we posted a 30.6% gain. Then, as now, the strong numbers came at time of heightened uncertainty and investor fear. This serves as a great lesson in that we need to tune out the cacophony surrounding the stock market and focus on the value of the individual names in the portfolio.

While the portfolio is not as cheap as it was a few months ago, we think that it still offers value and should provide good long-term returns. A few recent additions have helped performance. Questor Technology (QST), Xebec Inc. (XBC), Sangoma Technologies (STC) and Plantronics (PLT) have all been added in the last year. They have replaced names that have been acquired by other companies or were sold for valuation reasons. We still have about 6% in cash and have firm ideas on where to deploy it in the coming weeks.

The following table illustrates the performance of the Wutherich & Co. Composite to the present:

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a private company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. BMOSCI-wtd = BMO Small Cap Index, Total Return, weighted. This index is currently the most comparable to the Wutherich & Co. portfolio due to its average market capitalization, though it may differ greatly in its sector weightings; TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
