Monthly Message

The Wuthrich & Co. Composite was up 18.2% in November. This compares with the S&P/TSX being up 10.6%.

November marked the second-best month ever for the Wuthrich & Co. Portfolio (we posted a 22.3% gain in April of 2020). While the Portfolio is starting to reflect its underlying value, we think there is more to go. It still contains some cheap stocks. We never know when they will get recognized but it does bode well for returns over the coming years. There is no question that the pandemic and other factors will affect the timing of these returns but not their eventuality.

JF and I will be hosting a virtual presentation of our "Wuthrich & Co.'s Annual Update" in January. We will be giving you the details on how to connect shortly.

In the meantime, we wish all of you a **Happy Holidays and a very Merry Christmas.**

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
