The Wutherich & Co. Composite was down 1.4% in October. This compares with the S&P/TSX being down 1.6%.

Most of our companies have reported their recent quarters and results have, for the most part, been exceptional. Many of the companies that we invest in are what I would call permanent businesses. While all businesses can be knocked around by the economy and events like the pandemic, many of ours are relatively less sensitive to these influences. There is a permanence or persistency to the demand for their products or services. Investing in these types of businesses gives us the luxury of sitting back while the market experiences huge swings. We have a high degree of confidence that these companies will do just fine and continue to make us good returns in the long-term.

Lastly, JF and I would like to invite you to join us for our **Wutherich & Co. Annual Update**, to be held, virtually, on January 26, 2022. Yes, virtually, even though you know that JF would love to be enjoying a glass of wine, or two...or three, with you at the Mount Stephen Hotel while I stand in the corner with saint-like forbearance. Yet alas, COVID continues to interfere with JF's entertaining plans and we will conduct the meeting via Zoom. Please let us know if you would like the link to attend the meeting.

# Wutherich & Co. Factsheet

## Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

## Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

## Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a fund company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

## Other Facts

- Annual fees are 1.5% of assets on a quarterly basis in arrears, plus applicable taxes
- Any commissions, custodial or brokerage fees are in addition to the annual fees
- Clients qualifying for an institutional account would be charged 1.5% for the first \$1 million, 1.0% from over \$1 to 10 million and 0.5% for the next \$40 million
- Fees on any accounts over \$50 million would be subject to negotiation
- Minimum account size is \$250,000
- Investments are 100% RSP eligible

\*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
