The Wutherich & Co. Composite was up 7.5% in July. This compares with the S&P/TSX being up 4.7%.

The Two Step continues (please read the last two Newsletters for context)! Our Calgary based clients would be so pleased, especially in July, the month of Stampede. We sit like wallflowers, at the edge of the dance floor, watching all the action before us, but in our case, not feeling any need to join in. All the while, as the frantic back and forth motion continues in the markets, we think about the health of the companies in our portfolio. Very little has changed. While all are feeling the stresses of the current environment, most appear to be handling it quite well and are poised to prosper over the long-term.

Our holding in Points.com (PTS-T) has been acquired. This has added about 10% in additional cash to the portfolio. We are already happily deploying this in some of our favourite names at what we think are depressed current stock prices. While the near-term is as uncertain as always, our conviction remains high that these investments will deliver good long-term returns.

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
