The Wutherich & Co. Composite was down 3.0% in June. This compares with the S&P 500, down 1.9%, the DJIA down 2.1%, the NASDAQ down 1.6%, the S&P/TSX down 2.8%, while the BMO Small Cap Index was down 3.6%.

Greece is the word, though we don't believe the country's debt crisis will have a lasting impact on the companies that we invest in. As this plays out, our search for reasonably priced stocks continues. As we have discussed in recent Newsletters, this remains difficult. Time and again, we start to research an interesting company only to discover that it is very expensive relative to its long-term growth profile. However, the depressive effect that Greece and other international events are having on the market is starting to cheapen some stocks. We have cash in the portfolio and hope to use it to buy good quality companies that might be unduly punished in the current environment.

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

*The Wutherich & Co. performance shown here is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. BMO SSCI-Wld = BMO Small Cap Index, Total Return, weighted. This index is currently the most comparable to the Wutherich & Co. portfolio due to its average market capitalization, though it may differ greatly in its sector weightings; TSX = S&P/TSX Total Return Index.
