Monthly Message

The Wutherich & Co. Composite was up 4.6% in June. This compares with the S&P/TSX up 2.5% and the BMO Small Cap Index up 4.6%.

As of June 30th, we are up 61.6% from our low of March 23rd but still down 30.0% from our all-time high on February 19th.

Large caps have certainly held up better than small caps during this crisis. As with many past cycles, however, the Wutherich & Co. Portfolio has growth and valuation on its side. We believe that most of our names are growing more quickly and trading at better valuations than our large cap peers. Over time, any gap with large caps has always corrected itself when we have experienced periods of strong performance for several years coming out of these crises. We have no reason to think that it will be any different this time. While one or two of our names are still quite vulnerable to the ongoing impact of the coronavirus, most of our names are performing very well and should be capable of growing for many years to come.

JF and I remain concerned for all of our clients and friends during this pandemic and hope that you and your families are doing well.

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a fund company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

Other Facts

- Annual fees are 1.5% of assets on a quarterly basis in arrears, plus applicable taxes
- Any commissions, custodial or brokerage fees are in addition to the annual fees
- Clients qualifying for an institutional account would be charged 1.5% for the first \$1 million, 1.0% from over \$1 to 10 million and 0.5% for the next \$40 million
- Fees on any accounts over \$50 million would be subject to negotiation
- Minimum account size is \$250,000
- Investments are 100% RSP eligible

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. BMOSCI-wtd = BMO Small Cap Index, Total Return, weighted. This index is currently the most comparable to the Wutherich & Co. portfolio due to its average market capitalization, though it may differ greatly in its sector weightings; TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
