

Wutherich & Co. October 2022 Newsletter

Wil Wutherich, President, B.Sc., MBA: Over thirty years as an equity analyst and portfolio manager with Standard Life, Van Berkom & Associates and Wutherich & Co.

Monthly Message

The Wutherich & Co. Composite was up 8.2% in October. This compares with the S&P/TSX being up 5.6%.

And the Two Step continues.

Will October's advance be met with two steps back in November? We don't know but what seems likely is that the market and the **Wutherich & Co. Composite** will continue these wild swings until there is some resolution to Putin and inflation. While this plays out it is important to note that very little has changed amongst the companies that we own in the portfolio. While some cracks may have formed in their operations, we see no chasms. Our companies seem quite capable of dealing with macro-economic and geopolitical forces.

We will have a chance to look at all of this in detail as many of our companies will be reporting their most recent quarters in the next few weeks. While some surprises will undoubtedly occur, we are not anticipating much disruption.

We continue to think our portfolio presents the most compelling valuation that we have seen for quite some time. This should support strong long-term returns.

The following table illustrates the performance of the Wutherich & Co. Composite to the present:

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a fund company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

Other Facts

- Annual fees are 1.5% of assets on a quarterly basis in arrears, plus applicable taxes
- Any commissions, custodial or brokerage fees are in addition to the annual fees
- Clients qualifying for an institutional account would be charged 1.5% for the first \$1 million, 1.0% from over \$1 to 10 million and 0.5% for the next \$40 million
- Fees on any accounts over \$50 million would be subject to negotiation
- Minimum account size is \$250,000
- Investments are 100% RSP eligible

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
