Monthly Message

The Wutherich & Co. Composite was up 1.3% in February. This compares with the S&P/TSX being down 2.4%.

The Wutherich & Co. Composite squeezed out another positive month in February as the world churns with uncertainty. We think our companies are well positioned to weather current economic and geopolitical storms. Will they be immune to them? No, but we think they can cope. Our companies have started to report their most recent quarters and this will offer clues as to how well they are coping. Two examples are Exchange Income Corporation (ticker EIF) and goeasy (ticker GSY). Both reported excellent numbers with strong outlooks while acknowledging that parts of their businesses may need extra attention in the coming quarters.

The long-term fundamentals of all our names are very strong right now. While it won't be straight up and to the right, we feel that this will underpin portfolio performance for years to come.

JF and I would like to thank those of you who contributed to your RRSPs this year. Canadian investors have gotten into this habit of thinking of January 1 to March 1, the so-called "RRSP Season", as being the only time of year to contribute. You should be looking at it year-round. It is never too soon to get your money working for you, regardless of the time of year.

The following table illustrates the performance of the Wutherich & Co. Composite to the present:

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a fund company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

Other Facts

- Annual fees are 1.5% of assets on a quarterly basis in arrears, plus applicable taxes
- Any commissions, custodial or brokerage fees are in addition to the annual fees
- Clients qualifying for an institutional account would be charged 1.5% for the first \$1 million, 1.0% from over \$1 to 10 million and 0.5% for the next \$40 million
- Fees on any accounts over \$50 million would be subject to negotiation
- Minimum account size is \$250,000
- Investments are 100% RSP eligible

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all of the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio.
