

Wutherich & Co. January 2026 Newsletter

Wil Wutherich, President, B.Sc., MBA: Over thirty-three years as an equity analyst and portfolio manager with Standard Life, Van Berkomp & Associates and Wutherich & Co.

Monthly Message

For January, the Wutherich & Co. Composite was up 5.6%.

The Wutherich & Company Portfolio performed well in January across most of its names despite having little exposure to the Materials sector. One stand-out, Haivision Systems Inc. (HAI-T), provided an extra boost. This is a Montreal-based provider of high quality, reliable, real-time and secure video networking and visual collaboration solutions. Customers are in the corporate, broadcast, entertainment, government and military sectors. The company has been struggling for about two years as it has reconfigured its product and service offerings. They believe they have gotten over this hump and are now capable of growing at “double digit rates” and much higher levels of profitability for years to come.

There are several names like HAI in the portfolio that are going through a fallow period yet are poised to break-out in the coming years. This, combined with stable growth in other positions, should provide solid appreciation of the Wutherich & Company portfolio over the long-term.

Finally: YES, ITS RRSP SEASON! I am sure that you are being reminded by many of your advisors of this. We’ll add our voice to the choir. Please look at topping up your **RRSPs** with any contribution room that you may have. Contact Jean-Francis Archambault at jf@wutherich.ca for help with the process.

The following table illustrates the performance of the Wutherich & Co. Composite to the present:

Wutherich & Co. Factsheet

Company Objective

Our goal is to seek prosperity for our clients through participation in stable, growing companies in North America, led by strong management teams that we consider our partners for the next five or more years.

Investment Philosophy

Our style can be described as concentrated, disciplined, long-term growth stock investing. The focus is on established companies that generally have a demonstrated track record in revenue, cash flow or earnings per share growth, with strong managements and solid balance sheets. The current emphasis in the portfolio is on the equity of small to medium capitalization companies, defined roughly as \$50 million to \$5 billion in market capitalization. The portfolio may include large capitalization companies if the right elements are there. Stocks are bought with a keen eye to valuation, so you're not likely to find many high multiple stocks here. The portfolio will likely maintain a significant percentage in foreign securities, providing exposure to investment returns outside of Canada.

Your account with us

Wutherich & Company is an independent investment counsellor. We do not hold assets for our clients, but simply exercise trades over your account as per an agreed upon investment policy statement and portfolio management agreement. Your account is held at [National Bank Independent Network](#) in your name. Withdrawals from that account can only be sent to you at your designated bank account and/or address of record. Wutherich & Co. may also do withdrawals from your account to satisfy any fees that may apply to your account. All accounts are cash accounts. Unlike hedge funds, we do not use leverage or derivatives to manage your money. Also, we are not a fund company – if you are a private investor with us, your account will mirror the Model Portfolio but your investments are not pooled.

Other Facts

- Annual fees are 1.5% of assets on a quarterly basis in arrears, plus applicable taxes
- Any commissions, custodial or brokerage fees are in addition to the annual fees
- Clients qualifying for an institutional account would be charged 1.5% for the first \$1 million, 1.0% from over \$1 to 10 million and 0.5% for the next \$40 million
- Fees on any accounts over \$50 million would be subject to negotiation
- Minimum account size is \$250,000
- Investments are 100% RSP eligible

*The Wutherich & Co. performance shown here (using the Time Weighted Rate of Return method) is of a composite which combines the performance of all the accounts managed by Wutherich & Co. that have been invested according to the Wutherich & Co. Portfolio throughout their history. These accounts vary greatly in the size of assets that they contain and whether or not fees have been deducted directly from the accounts during their history. TSX-TR = S&P/TSX Total Return Index. Due to its large capitalization nature and substantially different sector weightings, this index may not be considered comparable to the Wutherich & Co. Portfolio. As the Wutherich & Co. portfolio does not compare directly with any known indices, we show the S&P/TSX index only as a reference for the overall Canadian stock market and should not be considered as a direct comparison to what we do.
